Why a New Dining Hall – Immediate Need

The current Dining Hall was built in 1946 and is now 75 years old. In its time it has served as a dining hall, classroom, and game room for young people as they came to NWOCYC to learn more about God. Despite valiant efforts from many volunteers over the years, each year many costly repairs are required to make the Dining Hall ready for the camp season.

Replacing the old dining hall is an urgent need for many reasons:

- **Safety: Storm Shelter/Basement.** Currently, during inclement weather we utilize our bath houses but it would be best if we have a place below ground for all campers and staff to gather during inclement weather.
- **Kitchen Facilities.** Imagine trying to cook for 200 people in your kitchen at home. Our cooks have been doing that now for decades. The current facilities were not built to handle the number of people who attend NWOCYC and we need a commercial kitchen to better provide meals for our campers.
- **Kitchen infrastructure and equipment need replaced.** The food cooler, freezer, industrial pizza oven, restaurant-grade dishwasher, and gas stove and double oven have all aged along with the kitchen structure. Each appliance needs replaced with new, conventional units.
- **Health Regulations.** Just like any restaurant we have to pass regular health inspections. And those regulations are written for modern kitchens and not for 75 year old kitchens. With each year our staff has to work harder and harder to maintain the kitchen facilities to keep in compliance with all rules and regulations.
- **Multi-purpose building.** The dining area, basement, and large porch will provide many opportunities for comfortable fellowship and Bible study.
- **Expanding months of usage.** The current dining hall has no air conditioning and only inefficient wood fireplace heating. A new dining hall allows for use year-round.

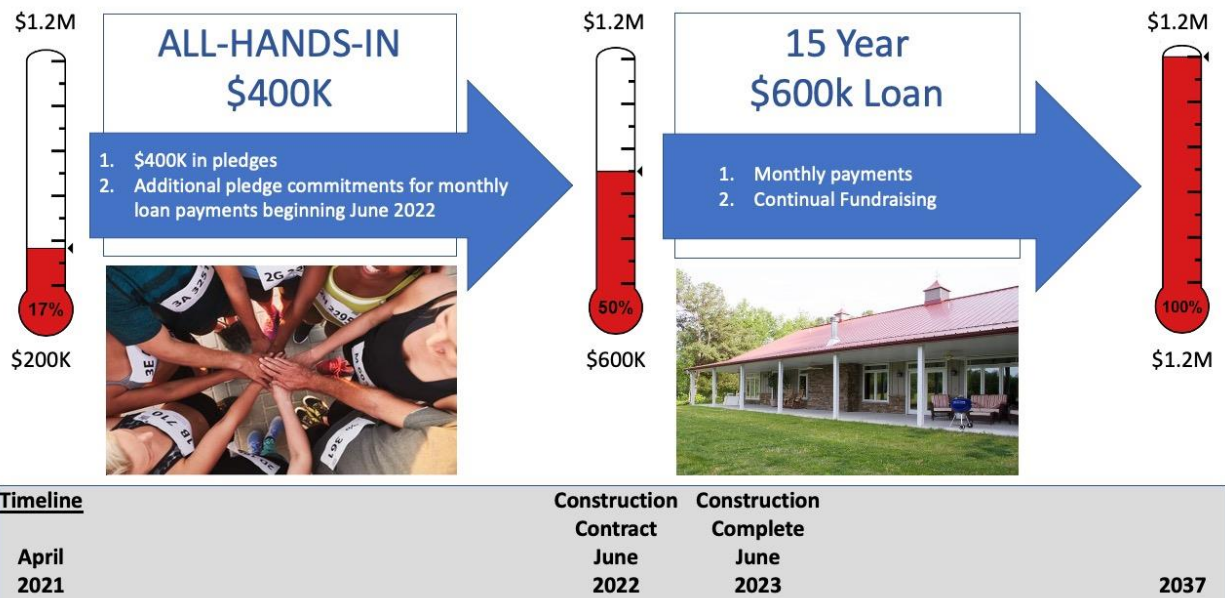

The camp Board has taken a very frugal approach, pursuing the best value option for the new building, while assuring a modern, quality construction and kitchen infrastructure. The necessary funding amounts to \$1,200,000, the largest investment ever in the history of the camp.

Urgent Timing and Funding Strategy

It is vital to the camp, for the reasons stated above, that we accelerate this fundraising so the Dining Hall construction is completed for the 2023 camp season. Therefore, keeping things completely transparent for all to understand, the following strategy is being pursued.

- Raise half of the necessary \$1.2M by June 2022 through the All-Hands-In \$400K effort, adding to the existing \$200K already raised.
- Gain monthly commitments to support a bank loan for the other half of the funding.

NWOCYC Revival CAMPaign – Dining Hall Blitz

SUMMARY

This New Dining Hall project will undoubtedly better our ability to minister to young people. This project will give NWOCYC not only a modern dining facility but will allow us to use the camp year-round in our pursuit of impacting the Church in Northwest Ohio. We are thankful that God continues to shower his abundant grace upon us as we labor for young people in Northwest Ohio and beyond.

Since its inception more than 52 years ago, NWOCYC has always been driven by a sense of inclusion and family. We need you to become part of our Camp family, and partner with us to complete the new Dining Hall. With your support, we will continue to serve thousands of additional children, adults, and families every year.
